

## Gliadin Deamidated Antibody, IgG

Order Name: **GLIAD IGG**

Test Number: 5537550

Revision Date: 01/01/2022

| TEST NAME                        | METHODOLOGY             | LOINC CODE |
|----------------------------------|-------------------------|------------|
| Gliadin Deamidated Antibody, IgG | Chemiluminescence Assay | 63459-2    |

| SPECIMEN REQUIREMENTS |   |               |                    |                       |
|-----------------------|---|---------------|--------------------|-----------------------|
| Specimen              | Specimen Volume (min)   | Specimen Type | Specimen Container | Transport Environment |
| Preferred             | 1.0 mL (0.5 mL)   | Serum         | Clot Activator SST | Frozen                |
| Instructions          | Allow specimen to clot completely at room temperature. <b>Separate serum from cells ASAP or within 2 hours of collection.</b><br>Stability: Room Temperature 8hrs, Refrigerated: 48hrs, Frozen: 30 days. Transport Frozen |               |                    |                       |

| GENERAL INFORMATION |  |
|---------------------|--|
| Testing Schedule    | Mon - Fri  |
| Expected TAT        | 1-3 Days   |
| Clinical Use        | Assist in diagnosis of celiac disease; however, interpret results with caution due to the propensity of assay false positives. Useful to monitor diet compliance in celiac patients. |
| CPT Code(s)         | 86258  |
| Lab Section         | Immunology - Serology  |
