Infliximab Activity and Neutralizing Antibody

Order Name: Infliximab NAB

Test Number: 6905051 Revision Date: 01/02/2020

TEST NAME METHODOLOGY LOINC CODE

Infliximab Activity and Neutralizing Antibody

Electrochemiluminescent Immunoassay

SPECIMEN REQUIREMENTS					
Specimen	Specimen Volume (min)	Specimen Type	Specimen Container	Transport Environment	
Preferred	2 mL (1 mL)	Serum	Clot Activator SST	Frozen	
Instructions	Specimen Type: Red-top tube Specimen Storage: Frozen (p stable x6 Specimen Collection: Serum delays in turnaround time whe REQUESTED.	oreferred) or refrigerated Stabilit must be separated from cells w in requesting multiple test on fro	y: Room temperature: 7 days Refrigerated vithin 45 minutes of venipuncture. Send se	TE FROZEN SPECIMENS FOR EACH TEST	

GENERAL INFORMATION		
Expected TAT	5-10 days	
Performing Labcorp Test Code	503870	
Notes	Labcorp Test Code: 503870	
CPT Code(s)	80230, 82397	
Lab Section	Reference Lab
