

MLH1 Promoter Methylation, Paraffin

Order Name: **MLH1PCR**

Test Number: 6905085

Revision Date: 11/14/2022

| TEST NAME | METHODOLOGY | LOINC CODE |
|-------------------------------------|-------------|------------|
| MLH1 Promoter Methylation, Paraffin | | |

| SPECIMEN REQUIREMENTS | | | | |
|-----------------------|--|---------------|--------------------|-----------------------|
| Specimen | Specimen Volume (min) | Specimen Type | Specimen Container | Transport Environment |
| Preferred | | Tissue | Paraffin Block | Room Temperature |
| Instructions | Notes: Tumor surface area >=4mm2 tumor area and >= 50% tumor content are preferred. Specimen Type: Tissue block and slide container Specimen Storage: Room temperature Special Instructions: Please provide a copy of the pathology report. MLH1 testing will be delayed if the pathology report is NOT received. | | | |

| GENERAL INFORMATION | |
|------------------------------|---------------------------|
| Expected TAT | 6-10 days |
| Performing Labcorp Test Code | 512031 |
| Notes | Labcorp Test Code: 512031 |
| CPT Code(s) | 88381, 81288 |
| Lab Section | Reference Lab |
