| Specimen              | Specimen Volume (min)                                                                                                                                                                                                                                                                                                                                                                                            | Specimen Type | Specimen Container                        | Transport Environment |
| Preferred             | 30 mL (15 mL)                                                                                                                                                                                                                                                                                                                                                                                                    | Urine, Random | Sterile Urine Container Preservative Free | Room Temperature      |
| Instructions          | Specimen: 30mL(15mL) Random Urine Preservative free Urine Transport tube Room Temperature or Refrigerated.  Cause for Rejection: Insufficient volume, no ID on container, urine from preservative tube.  SUBMISSION/TRANSPORT (<3 days): Room Temperature. For storage beyond three days, specimen should be refrigerated or frozen.  Stability: Room Temperature 14 days, Refrigerated 14 days, Frozen 6 weeks. |               |                                           |                       |
